Where to Find Help

Yukon Government – Breastfeeding and Infant Feeding Support

The Government of Yukon provides evidence-informed information on breastfeeding and infant feeding, including access to breastfeeding support groups, individual appointments with community health nurses, and local infant-feeding services for families during pregnancy and after birth. ([Yukon](#))

Community Health Nursing

Community Health Nurses throughout Yukon provide breastfeeding assessment, infant feeding support, prenatal education, and referrals when additional support is needed. Private breastfeeding appointments are available, and nurses are specially trained in breastfeeding and infant feeding. ([Yukon](#))

Breastfeeding Support Groups

Yukon Health and Social Services offers free breastfeeding support groups where families can receive guidance from community health nurses, ask questions, and connect with other parents. Individual appointments are also available for families who prefer one-on-one support. ([Yukon](#))
